#### LABOUR'S CRITICISM OF **COVERNMENT**

London, To-day. Last night's sitting of the House of Commons was again devoted to the debate on Disarmament. The discussion arose out of the vote of censure moved by the Opposition adopted at the Labour Party Conference recently held at Hastings. The motion was submitted by Mr Morgan Jones, the Labour Member for Caerphilly, Wales, who after contending that the strong desire of the British people for an international agreement on Disarmament had not been reflected in the Government policy at Gengya, said he cordially admitted that the draft convention put forward at the Conference, by Great Britain, was the first definite scheme to be produced. Although it was not perhaps so advanced as he could have desired, it was one worthy of full

Initials continue to give individuality to bags as suggesting private ownership. They come in many unusual designs not seen before and in various materials.

One of the most recent members. of the initial family is the mirror initial. It has a beveled edge and is backed up by a metal which has prongs with which to fasten it on. Some "gluc-back" initials are already popular with women who want something less expensive.

"FOOLISH HAIRDRESSING"

Curls-ravishing curls-by day Torture by night,

The new hair fashion of massesof curls all over the back and sides of the head, which is sweeping all other styles away, is causing the girls who adopt its sleepless night.

For 15 years—since short hair became general - women have enjoyed head freedom. Now they are going back to the pre-war, prepermanent-wave horrors of curling pins.

Daytime beauty is bought at the expense of steel ribs biting into the head by night.

But where in pre-war days the pins were worn across the front of the head, the new ones are worn at the sides and back.

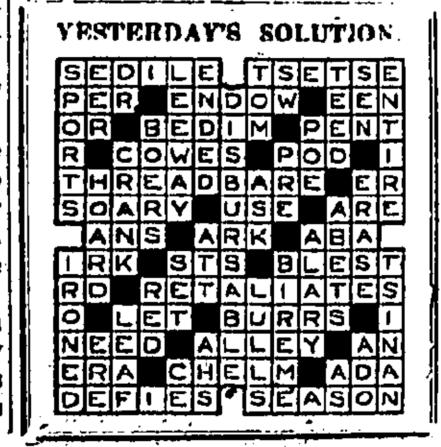

Unless a girl has naturally curly hair, or can afford to go to the hairdresser practically every day, the new fashion compels her to sleep with her hair in grips. Delectable Curls

Ever night before going to bed she divides her hair into sections and rolls each section up tightly in a grip. And if she sleeps on her back or her side the grips press ipto her head.

## BRIDGE NOTES

#### Olympic Bridge.

The sixteen bridge deals for the World Olympic Contract Bridge Test were especially arranged by the committee, and participants in the contest were, therefore, no doubt on the qui vive for all sorts of "tricks" to be set up. As a matter of fact, however, there were few really "tricky" points in these hands, but there were several which needed careful consideration. Doubtless many of them were recognised by the experts, but it may help and interest the others to have a record of the "points" of each hand. -

The series of deals which constituted the first Olympic competi-Kowloon Bay, tion illustrated rather ordinary bidding and play, but to obtain a "par" score, soundness was essential. On this occasion something more than that was necessary, for the deals this year were certainly not ordinary. The keynote of the series was "careful play" rather than trickery, and how careful in spades would not appear to be serious bridge play should be is avoidable unless the club ace is

fourth innings to win. Stokes Hit On Finger.

Stokes and Simpson again opened wicket. the Shanghai innings and the former, who was bowled first ball in the first innings, again faced the fast bowler for his first ball.

The third ball got up sharply and bit him on the hand, but after the game had been held up for a short while he got Beck's fourth ball away to the leg boundary.

Garthwaite again opened the Supreme Court end and hit Simpson's pads with his first ball which swing from the off.

He appealed for a catch behind the wicket with his second ball, but it was much to low for Dunkley to gather. His fourth ball was a no ball and Simpson opened his score with single. Simpson, however, was lucky off the last ball when a snick went just wide of Teddy Fincher in the gully.

Beck made two kick badly in his fourth over after bowling three loose ones, which one was square out to the rails by Simpson.

Double Bowling Change. Owen Hughes brought on Minu at 15 in place of Garthwaite. Simpson looked as if he gave Dunkley a hard chance on the leg side off his fourth ball. Pereira relieved Beck in the next over and bowled a maiden to Stokes, who was fortunate not to play the last ball on to his wicket.

Lunch was then taken, the score being 16 for no wicket after just under half an hour's play Stokes was 7 not out, and Simpson 8.

One of the pluckiest innings ever seen on the Club ground was witnessed when Tom Hayward, who was given an injection in his finger after splitting a nail when attempting to catch Donald Leach, remained at the wicket for 140 minutes while collecting 65 runs in an undefeated effort.

Surprisingly passed over by the Selectors, of whom he was one, Hayward played a chanceless knock and the highest innings in his Interport career. In his 65 were seven boundaries, the result of square cutting and leg gliding. Hayward displayed magnificent anticipation when he took a hard running eatch at first swung wildly at a ball from Pereira and edged the ball just wide of Dunkley. It was one of the best catches of the present series.

THE CHINA MAIL. In Nazi Propaganda Probe

Charges that many Germans in the United States are being compelled to cooperate with Nazi organizers through threats of reprisals against their relatives in Germany will be probed at the forthcoming Congressional investigation sponsored by Representative Samuel Dickstein, of New York, chairman of the Congressional Committee on Immigration. Among those expected to testify is Heinz Spanknoebel, head of the Freunde des Neun Deutschland (Friends of New Germany), Chancellor Hitler's head man in the United States. Dr. Hans Luther, German Ambassador to Washington, was also invited to testify, but it is believed his diplomatic status makes his acceptance impossible. Findings of the committee may be basis of representations to the German government by Secretary of State Cordell Hull.

#### U. S. LIGHT-SAVING CAMPAIGN.

Washington, D.C.

A "turn-out-the-lights" campaign has been launched by the Post Office Department as a means of governmental economy.

A weekly checkup by Postmasters throughout the country to see that employees are turning off lights that are not needed, was requested by Williman Evans, Fourth Assistant Postmaster General. He also asked that lower power bulbs substituted where possible and that bulbs and globes be kept clean give the maximum light at minimum cost.—Reuter.

#### THE PERFECTED ANTOGIRO

Culmination Of 13 Years' Experiments.

WONDERFUL SIMPLICITY OF CONTROL

The "Direct Control" Autogiro C.30 marks the culminating point and successful conclusion of experiments carried out by the inventor. Senor Don Juan de la Cierva, during the last thirteen years.

This type represents the evolution of a basic design in a simplified form on which all future types will be modelled, and its development will be analogous to that, of the motor car in that detail design alone will be the main consideration. Hitherto the autogiro, in common with other aircraft, has used ailerons, elevators and a rudder to control its flight but now all these are suppressed, the only stabilising surfaces, apart from the rotor blades themselves, being a horizontal and a vertical fin at the tail.

Simplicity Of Control

Control is maintained by means of a hanging stick direct from the centre of the rotor which is mounted on a universal joint and this stick tilts the rotor as a whole.

A forward movement tilts the rotor axis forward, making the machine descend and a backward movement has the opposite effect; f the stick is put to right or left the machine turns in the same direction.

The response to the operation of the control lever is therefore similar to that of the winged aeroplane an advantage for those pilots who desire to change from one type to the other.

The only possible drawback to this means of control would appear to be that turns cannot be executed without banking, but the simplifica-Increases in motor truck produc- tion in design not only makes the the first industries on the road to that not only can the machine be

## ANOTHER ERROR IN THE BOOKS.

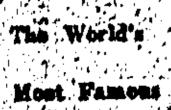

There is a saying that "The man who never makes a mistake never gets anywhere, while the man who makes too many loses his job." You cannot give your full attention to business if you are not feeling up to the mark, and it is then that errors creep into your work which will certainly retard your progress and even may lead to dismissal.

One of the chief causes of that 'off-colour' feeling is an impoverished condition of the blood, which brings in its train nervous disorders, depression, forgetfulness, brain fag', drowsiness during business hours, yet an inability to sleep soundly and restfully at night.

Don't delay, when you find yourself becoming inefficient, lacking, in energy, nervous, run-down, when your memory shows signs of failing and you make mistakes, but begin a course of Dr. Williams' Pink Pills at once.

These re-vitalising, rejuvenating pills are invaluable to the office worker and others in sedentary jobs, for they quickly restore failing mental powers, build up the nerves, revive appetite, energy and spirit, by their remarkable purifying, enriching tonic action on the blood.

Dr. Williams' Pink Pills are recommended for both sexes in all chaes of anaemia (blood impoverishment) and its attendant evils, also for rheumatism, scintics, lumbago, the after effects of malaria and other fevers. They are world renowned as a remedy for the special ailments of women. Your chemist can supply you with

Roosevelt's Man For Moscow

While Senator McAdoo has been delighting his Moscow hosts with eulogies of Russia's progress, Mr. John MacMurray, the newly-appointed American Minister to Esthonia, Lativa and Lithuania, is on his way to his post.

The appointment is significant. American advocates of recognition say that Mr. MacMurray is President Roosevelt's man for Moscow.

### F. A. CUP FIRST ROUND DRAW MADE

London Teams Fortunate With Home Ties.

PALACE ENTERTAIN NORWICH

London, To-day.

London Clubs have been fortunate in the draw for the First Round Proper of the English Football Association Cup, held by Everton, no fewer than seven securing home ties; for the First Round which will be decided on Saturday week.

The best match will probably witnessed when Crystal Palace, who are fifth in the southern section, entertain Norwich City, the present leaders of this Division, at Selhurst Park.

Folkstone, who reached the Third Round before losing 2-0 to Huddersfield last year, have against reached the First Round and are at home to Bristol Rovers. In the North Gateshead receive Darwen, and Barnsley CATHEDRAL WEDDING travel to Halifax.

The duel between Barrow and Doncaster should secure a big gate, while Northampton's home game against Excter may provide one of the best matches.

The First and Second Division Clubs enter the Third Round of the Cup on January 13

EMPIRE'S POLICY IN PACIFIC

(Continued from Page 1.)

"The problem we are trying to solve, the way we are trying to find in this entanglement of propaganda, and the expectation of despair and hope, is the way to enable us and to enable the Govern ments of Europe and the League of Nations to establish peace in Europe. Whatever form these conversations may take, it cannot involve any weakening of our loyalty to the League of Nations nor any diminution of its status or authority.

"If there is anyone who says that in order to deal with the present difficulties we should be asked 40 join in the destruction of the only existing machine for international co-operation, a machine for which no alternative has ever been proposed, our reply is 'No.'

"As to the Disarmament Conference, we cannot admit that because Germany has withdrawn from It; the work of Disarmament ought not to go on.

"Germany's withdrawal has unquestionably greatly complicated the work of the Conference and necessarily involves consideration of ways means and methods. It would be quite unreasonable to ask the Government now and today for its final view of all these qualions," he said.

No Government added the Prime Minister, could compel any other Government to accept the risks that it believes are too great, and Britain could not extend her international commitments at the price which might be asked for in the interests of an agreement. British Wireless Service.

Stealthily he crept toward the house. The moon went behind cloud-bank, and the darkness swallowed him. The lean man, sitting his horse, motionless, heard the rap of knuckles on the door-then pause, the rattle of the latch. A moment later there came the heavy thud of a shoulder against wood-a cracking sound, and a crash as the door went down. The lean man's lips tightened.

From within the cabin came the noise of one stumbling over furniture, then the fitful fire of a match illumined the windows. In the quiet out there in the night, the man on the horse, 20 yards away, could hear the clumping of the other's boots on the rough board floor, and every rustle of the papers that he fumbled in his search. Another match scratched and sputtered and sputtered, and then, with a hoarse cry of triumph, was flung down. Running feet padded across he short grass and Will Arbiaster drew up, panting.

"MAEDCHEN IN UNIFORM,"-CENTRAL THEATRE.

CINEMA

NOTES

Great in its simplicity, its appealing beauty, its fine acting and powerful lesson, "Maedchen in Uniform" 'now showing at the Central Theatre, makes such a profound impression that it can be placed among the finest pictures produced in the past few years. It is a deeply interesting study of adolescent girls in an exclusive and aristocratic finishing school at

Potsdam run on military lines. Although the dialogue is in German, there are good superimposed English titles. The novelty of the film is the acting of some 50 girls, who seem very natural, so completely do they enter into the spirit of the tale.

The chief roles are undertaken by excellent actresses.
